Ms. Marlene H. Dortch  
Secretary  
Federal Communications Commission  
445 12th Street, S.W.  
Washington, D.C. 20554

**Re:** IB Dockets 05-220 and 05-221

Dear Ms. Dortch:

On September 30, 2005, Gerry Salemm of ICO, and Amy R. Mehlman, a consultant to TerresStar Networks, Inc. ("TerreStar"), spoke by telephone with Sam Feder, Acting General Counsel, to discuss the above-referenced proceedings involving ICO Satellite Services, G.P. ("ICO"). ICO reiterated the need for sufficient spectrum for 2 GHz mobile satellite services ("MSS") to support the unique capabilities of its system to provide competitive broadband, homeland security, public safety services to rural and underserved as well as urban areas. ICO noted its demonstrated commitment to launch of its 2 GHz MSS system by 2007, as evidenced by its timely milestone compliance and recent successful round of financing for system buildout. Finally, ICO emphasized that redistribution of 2 x 10 MHz of 2 GHz spectrum to ICO for MSS best serves the public interest, while a new 2 GHz processing round or further reallocation of MSS spectrum for terrestrial use would each undermine the public interest in robust competitive next generation MSS services.

In accordance with section 1.1206(b) of the Commission's rules, an electronic copy of this letter is being filed.

Sincerely,

/s/ Suzanne Hutchings Malloy  
Suzanne Hutchings Malloy  
ICO Satellite Services, G.P.
